

Nguyen Duc Anh Khoi

SENIOR JAVA BACKEND DEVELOPER

Ho Chi Minh City, Viet Nam 0776524327 khoinda.611@gmail.com https://khoinda.io.vn/

PROFESSIONAL SUMMARY

Senior Java Backend Developer with 6+ years of experience building scalable microservices for enterprise healthcare platforms. Proficient in Spring Boot ecosystem, event-driven architecture, and performance optimization for high-concurrency systems. Experienced in mentoring development teams and maintaining high code quality standards

WORK EXPERIENCE

Team Lead

2023 - Present

VNPT IT

- Lead and mentor a team of 5 developers, conducting bi-weekly 1-on-1s that improved team retention to 100% over 2 years
- Established team-wide commit conventions and led the design and rollout of a Maven extension that installs a Git commit-msg hook to enforce them, adopted across 4 microservice teams spanning 4 projects
- Established and enforced coding standards, conduct thorough code reviews to maintain high code quality across projects, led 500+ code reviews annually, reducing production bugs by 40%
- Architected and led the implementation of an asynchronous e-invoice integration flow to replace the traditional synchronous process, improving system responsiveness and reducing coupling between VNPT HIS and external e-invoicing systems
- Analyzed requirements, designed solutions, and led the team to upgrade the VNPT HIS system to comply with new Ministry of Health regulations on health insurance reimbursement, enabling hospitals to reliably settle tens of billions VND in insurance claims each month
- Spearheaded VNPT HIS 4.0 platform upgrade from Java 8 to Java 21, Spring Boot 2.3 to 3.5, and Hibernate 5 to 6, enhancing performance and enabling adoption of modern Java features across microservices architecture
- Optimized VNPT HIS 4.0 system performance, scaling capacity from 200 to 1,000+ concurrent users through performance tuning and architecture improvements
- Coordinated closely with QA, DevOps, Business Analysis, and Product teams to consistently complete 2 sprints per month, delivering an average of ~100 issues per sprint while ensuring alignment with hospital needs and Ministry of Health regulations

Fullstack Developer

2019 - 2023

VNPT IT

- Co-architected internal core framework extending Spring Boot 3 and Java 21, now adopted by 8 microservice teams, reducing boilerplate code by 50% and accelerating new service development from 1 week to 2 days
- Developed payment integration library supporting 5 major banking providers (Agribank, BIDV, VietinBank, HDBank, VNPT Money), processing 1,000+ transactions daily with 99.9% uptime and average response time under 2s
- Maintained and developed 50+ new features for VNPT HIS Java platform serving 4,000+ hospitals nationwide, achieving 99.5% system availability and resolving 200+ production issues with average resolution time of 4 hours
- Designed and implemented a 'Fee & Health Insurance' microservice for VNPT Home & Clinic using Java 17, Spring Boot microservices architecture, Kafka, Redis, Oracle, React, serving 1,000+ clinics

PROJECTS

Audi Sai Gon - Dealership Website
Apr 2026 - Present

Freelance Client Project
https://audisaigon.vn/

- Built and maintain the public website for the Audi dealership network in Vietnam: car catalogue, detail pages with filters, service pages and a blog, all content-first and in Vietnamese
- Stack: Astro 7, TypeScript, Tailwind CSS 4, Cloudflare
- Averages 700k+ requests a month with zero Worker errors and a P90 CPU time of 1 ms per request
- SEO handled at build time: per-page canonical and Open Graph metadata, JSON-LD Vehicle and breadcrumb schema, and a generated sitemap

Moni - Expense Manager Web App
Aug 2023 - Present

Personal Project
https://moni.khoinda.vn/

- A modern personal finance management platform built to explore latest Java and React ecosystem
- Stack: Java 21, Spring Boot 3.x, React 18, PostgreSQL, Redis, Docker, GitHub Actions CI/CD
- Implemented JWT authentication, RESTful APIs, responsive UI, and automated deployment pipeline

Inventory
May 2023 - Aug 2023

Personal Project

- Personal project for inventory and sales management built with enterprise-grade frameworks
- Stack: Spring Boot, Jmix Framework, PostgreSQL
- Features: Inventory tracking, sales order management, stock alerts, reporting dashboard
- Demonstrates rapid development with Jmix enterprise platform and database design skills

Simple Telegram Bot Spring Boot Starter
Apr 2021 - Aug 2023

Open source
https://github.com/ndanhkhoi/simple-telegram-command-bot-spring-boot-starter

- A lightweight library simplifying Telegram bot development with Spring MVC-style annotations
- Built with Java, Spring Boot, and reactive programming paradigms
- Provides @BotController and @CommandMapping annotations for intuitive bot development
- Published on JitPack for community use

TECHNICAL WRITING & COMMUNITY CONTRIBUTION

Technical Blog - Viblo Platform

- Published 10+ in-depth articles on backend development and DevOps practices
- Topics: Spring Boot, Apache Kafka, Event-Driven Architecture, Docker, GitOps, AOP
- Total reach: 30,000+ views from developer community
- Profile: https://viblo.asia/u/ndanhkhoi

SKILLS

TECHNICAL BACKEND

Java · Spring Framework · Hibernate · JHipster

DATABASES

MySQL · Oracle · PostgreSQL · MongoDB

MESSAGING

Apache Kafka · RabbitMQ

FRONTEND

HTML · CSS · Bootstrap · Tailwind CSS · JavaScript · TypeScript · ReactJS · Astro

CACHING

Redis

PROGRAMMING PARADIGMS

Reactive programming · Functional programming · Object-oriented design · Aspect-oriented programming

CODE QUALITY

SonarQube · ArchUnit

ARCHITECTURE & DESIGN

Microservice architecture · Data structures and algorithms · Database schema design and implementation

MONITORING & PERFORMANCE

Glowroot · Application Performance Monitoring (APM) tools

DEVOPS & CI/CD

Docker · Portainer · CI/CD with GitHub Actions · GitLab CI · Heroku · Cloudflare (Pages, Workers)

AI-ASSISTED DEVELOPMENT

Proficient with AI-powered coding tools (Cursor, Claude Code, GitHub Copilot, Google Antigravity) to accelerate development workflow

LANGUAGE

English - Able to read technical documentation and communicate in professional contexts · Vietnamese (native)

LEADERSHIP & COLLABORATION

Team leadership and mentorship (2+ years leading 5-member development team) · Cross-functional collaboration with QA, DevOps, Product teams · Code review and quality assurance practices

COMMUNICATION & PROFESSIONAL

Technical presentation and knowledge sharing (10+ blog articles, 30K+ views) · Stakeholder management and requirement analysis · Agile/Scrum methodologies

HONORS & AWARDS

Top 2 Graduate with Excellent Certificate - Can Tho University (GPA: 9.48/10) 2019

VNPT Star Award - Outstanding employee contributions 2020

IT World Awards - Silver Award in the Healthcare Service Product category for VNPT Home & Clinic (as a member of the project's development team) 2022

Certificate of Merit - VNPT Corporation for exceptional performance 2022

EDUCATION

Major: Information Technology Oct 2015 - Dec 2019

Can Tho University

GPA: 9.48/10
